Work Experience

M1 Limited, UI/UX Designer — Oct 2022 - Present

- Led end-to-end development of a scalable design system across 4 product platforms, establishing a unified source of truth for design standards.
  - Defined governance frameworks, contribution models, and maintenance processes to ensure consistency and sustainable evolution.
  - Championed cross-functional adoption, reducing design-to-development turnaround time and significantly improving UI consistency across products.
- Led UX strategy and end-to-end design execution for the My M1+ app, shaping product direction in close partnership with Product Owners and Engineering team.
  - Optimised payment flows to create a more intuitive and frictionless experience, eliminating unnecessary recurring payment prompts.
  - Redesigned the in-app feedback survey experience by introducing contextual triggers across 5 key user actions, enabling journey-based insights and contributing to the application's Net Promoter Score improvement from -38.5 to 32.1 within a year.
  - Redesigned the app information architecture and interface of the roaming service experience to improve clarity, hierarchy, and usability.
  - Designed the in-app user journeys to enable a strategic free roaming data marketing initiative, collaborating cross-functionally to drive successful campaign execution within tight timelines.
- Advocate for UX writing and experience standards
  - Championed UX writing as a critical pillar of product quality, securing Product Owner buy-in to improve clarity, professionalism, and consistency across digital touch points.
  - Reviewed and refined 300+ FAQs on the website to improve content clarity and enable more effective user self-service.
- Optimised UX flows and scripts for 4 hotline voice bots.
  - Collaborated with stakeholders to refine scripts and flows, delivering a more intuitive self-service experience, reducing operational costs, and enabling teams to focus on higher-priority calls.
- Recognised with 5 organisation-wide awards over 2.5 years for driving high-impact initiatives beyond core responsibilities.

SIA-NUS Design Thinking Workshop, Facilitator — Jul 2021

- Guided cabin crews to redefine in-flight pain points and brainstorm for creative solutions by utilising the design thinking framework to improve in-flight customer experience.

Trinax Pte Ltd, UI/UX Design Intern — Jan 2021- Jun 2021

- Led end-to-end UX design for new digital projects, developing information architecture, user flows, and low- to high-fidelity wireframes to enhance usability and streamline user journeys.
- Served as UX Lead for a large-scale virtual fundraising event, producing 100+ wireframes and collaborating with cross-functional teams to deliver a cohesive and user-centered experience.

Education

National University of Singapore (NUS) — Aug 2018- Jul 2022

Bachelor of Industrial Design (Honours)

Volunteer Experience

Filos Community Services — Jun 2023 & Apr 2024

- Contributed to the packing and distribution of food packs for 275 low-income households, supporting community outreach.
